LEONG ANDOW, APPELLANT: THE QUEEN, RE-SPONDENT,-MOTION TO QUASH CONVICTION. This was an appeal from a decision of two Magistrates, Hon. Ng Choy and H. G. Mr. Hayllar, Q.C., instructed by Mesers. Brereton and Wotton, appeared for the appellant and the Attorney General (Hon, E. L. O'Malley)

The case stated was that on the 13th Septem ber the appellant and three others were brough before the magistrates charged by P. C. Middle with causing their junk to leave her anchorage between the hours of 7 p.m. and 5 a.m. without : special permit or special clearance, called a night clearance, is contravention of sub-section 9 of section 38 of Ordinance 8 of 1879. The other defendants were discharged, but the appellant months' hard labour, and the runk and cargo (a) That on the night of the 10th September, about 9.3), a boat was observed by P.C. Mr. Hayllar said the only point he took in the word "jusk," which was defined in sub-section I of section 38 to mean " every sea-going Chinese fishing best or vessel licensed under pameraph drawn away the trade from the junks. 'Harbour boats did not require elearances, or permits or anything of the kind, but came under regulations made under section 39. It was for the Crown to make out that the boat was a sea-going vessel before a conviction could take place under this section, and it should have appeared on the face of the case, but who ever-hard of a sea-going junk 30ft. long ? His case was simply this, that there

should have been something stated in the case itself to show that this was a sea-going Chinese ressel, whereas the evidence for the prosecution showed that it was a boat crossing the harbour. People did not speak of sea-going junks as boats and all the presumption was the other way: Besides, this section was formerly Ordinance 6 of 1866 and was now incorporated in the new. A Washington special to the Commercial Bul CHENISTS.

The following telegram from St. Petersburg, of section 38 and brought bimself under the the stormy weather which provides the month of th whole question," said Secretary Evarts to-day your representative. "is one purely of interpretation of the statutes. There is, of course, nothing whatever in the various treaties relative to the vital question of discrimination other than the charges specified in the triaties themselves, and hence the first and foremost matter to find out before coming to any settlement is whether Chins does or does not discriminate against our vessels trading with her various ports."

"Is that not easily determined ?" was the nat-

"Oh, yes," he replied; "but it may take longer between Washington and China and Ithan between China and Paris. For instance, th Cabinet has taken no definite action in the premises beyond the President's refusal to issue proclamation exempting this vessel from the payment of certain dues. I should add, however, that there is no indication we can find that China thus discriminates. It is denied, and I know the spirit and wish of our Government is to extend every reasonable and just facility to the

Chinese Empire in all matters of commerce." The correspondent adds .- In case it shall established by the Chinese authorities that no tax beyond alien tonnagementioned in the treaty is exacted from American masters, that no dis oriminating duties are made, and no levies in the shape of excessive pilotage, and that our vessels are placed on a par in this respect with vessels of China herself, then the President will issue a proclamation, and [extra] impost levied on the Hochung will be returned, leaving for further consideration the factor in the problem, which refers to the inequality between Chinese and American yessels in closed ports of the Empire.

LETTERS FOR THE UNITED STATES BY SAIDING

When it is desired to forward letters to the United States by a sailing ship which is not notified as carrying a mail, it is only necessary to post the letters in the ordinary way, marked with the name of the ship, and prepaid 8 cents per half ounce as usual. This Office then undertakes the duty of obtaining notice of departure and despatching the correspondence. It is requested that the letters be posted if possible at least one day before the date fixed for sailing.

Correspondence for the West Indies (except those belonging to the Postal Union, the Bahamas, and Hayti), for Monte Video and Paraguay can no longer be sent via San Francisco.

TEA MUSTERS. Persons who send Musters of Tea through the Post in Tins are requested to have them made flat or square instead of round, as it is impossible to pack round tine securely in the mail bogs. It is believed that the tea will travel more safely in flat tins, which are not so liable as round ones to be bulged in. 4 by 3 by 11 inches is suggested as a good

size. The time should not have sharp corners. Many boxes of letters are received at the Post Office not sealed, that is to say, the box is fastened with sealing wax, but there is no im-

pression of a seal. The attention of boxholders is called to the necessity of carefully sealing such boxes with some recognisable seal, and of sending a chitdressed to the Collector of Customs, San Fran- book or receipt with them. The omission of the latter precaution leaves a doubt as to whether the contents of the box ever reached the Post Office; the omission of the former, as to whether part of them might not have been abstracted for the sake of the Postage Stamps.
